5 Reasons to Leverage Lexell Blue's Cognos Developers

LOWELL RANGER
Principal BI Reporting Consultant

Lowell is an IBM Certified Cognos Solutions Architect with extensive consulting experience in the Business Intelligence and Financial Industry. His experience encompasses over 20+ years working with the Federal government and government contractors on various IT and financial management initiatives. Mr. Ranger has participated in all stages of the Business Intelligence system development life cycle methodology. He has led efforts related to requirements development and analysis, process design development, testing, and post-implementation support.

1 CUSTOM DASHBOARD & REPORTS

Lowell will help you visualize your company's data and fast-track the analytics process to create an easy-to-use data story in your Costpoint system.

2 INDUSTRY EXPERIENCE

Lexell Blue prides itself on offering its clients the most experienced consultants in the industry; Lowell is another valuable resource with over 20 years of experience working with Costpoint and creating Cognos solutions.

3 ENHANCE ALL THAT YOUR SOLUTION HAS TO OFFER

Our goal is to create standardization and streamline analytics and decision-making to simplify processes and maximize profitability for your Costpoint system.

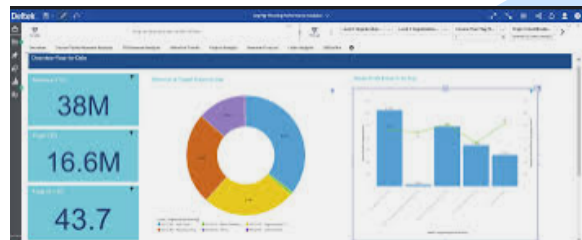

4 DELIVER ON-TIME & ON-BUDGET

Lowell has experience improving analytics on time from small to large entities, such as -

- Deloitte
- Sargent & Lundy
- Amentum
- Sierra Nevada Corporation
- Peraton
- Johnson Controls

5 MORE FACT-BASED DECISIONS

Leverage analytics to quickly reveal cost and hours overruns, giving you powerful "what if" scenario insights. As a result, you can deliver on-demand precise pipeline and revenue data.
