

How Lexell Blue's End-to-End Costpoint Services Can Transform Your Business

How ERP Helps Businesses Compete

86%

gained better reporting and visibility.¹

97%

of survey recipients reported operational benefits thanks to their new ERP system.²

68%

increased their growth and competitiveness.³

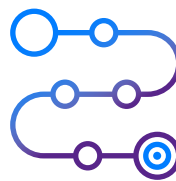

Since 2013, Lexell Blue has been providing technology solutions to enable businesses to gain a competitive edge. As a trusted implementation specialist for Deltek Costpoint and a proud Premier Partner of Deltek Inc. for over 10 years, Lexell Blue offers expert guidance that empowers Government Contracting (GovCon) and Aerospace & Defense (A&D) businesses to modernize operations and better manage people, processes, and projects.

Here's how Lexell Blue's end-to-end services can help your GovCon business thrive:

With a team composed entirely of principal-level talent, each consultant has at least 10-30 years of Costpoint experience. This makes Lexell Blue the perfect partner for complete business transformation, no matter your challenges.

Lexell Blue's positive track record speaks directly to its proven, repeatable processes – achieving consensus and satisfaction at every step. Lexell Blue first seeks to understand how clients view success and then works to reach those goals: from initial kickoff and planning to launch and post go-live support.

After working with hundreds of GovCon and A&D organizations, Lexell Blue navigates this sprawling industry better than anyone. They can help your firm achieve the digital transformation necessary to capture more significant market share.

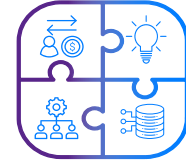

Lexell Blue works exclusively on Deltek Costpoint implementations. With Lexell Blue's leadership composed of former Deltek employees, no consultancy is more familiar with Costpoint or can help you achieve greater bang for your buck!

Lexell Blue's service portfolio is vast, including:

- Costpoint implementations and all add-ons
- Data migrations and restructures
- System assessments
- BI reporting
- Integrations and extensibility development
- Manufacturing
- Project management

Complex projects and finding innovative solutions to unexpected challenges are Lexell Blue's specialties. Whether it's working on a problematic merger or acquisition; providing solutions for a heavy manufacturing firm; or redesigning a multi-company, multi-currency system – Lexell Blue's solutions, knowledge, and decades of experience are up to the task.

Lexell Blue assessments are where ERP success begins:

1 **REVIEW**
Beginning with a systematic review of your processes and setups, Lexell Blue assessments are critical to getting the most from your Costpoint system.

2 **EVALUATE**
Lexell Blue will utilize all of its collective expertise to assess your usage and most persistent challenges.

3 **ALIGN**
Lexell Blue's experts will ensure that your Costpoint ERP setup is aligned with today's needs and tomorrow's goals.
